Collection "Weekend"

Some events are truly inspiring - and we want to fully dedicate our self to them. We asked ourselves how to give the time and attention needed to capture them in the best possible way. Especially for a laid-back, bohemian style. That's how our 'Weekend' collection was born. Two or three days where we're fully immersed, capturing every emotion, every moment, and the unique atmosphere — everything worth remembering for a lifetime.

6. COVERAGE HOURS ON DIFFERENT DAYS

First Day - We arrive at 3:00 PM on the first day or at the initial check-in time at the location if it's later than 2:00 PM. On this day, we can capture the rehearsal dinner or the venue shots and details (dress, rings, shoes, accessories).

Wedding Day - Although we shoot unlimitedly, please note that physiologically, after the 12th hour (usually more than enough), we may not be able to maintain the level of focus and creativity required for artistic shooting. In some moments, both photographers take photos, in others, they take turns, and in some moments, only one of them (at the discretion of the main photographer). Photos continue with lower intensity (only in interesting, previously unphotographed moments) after the last ritual.

Third Day - The engagement on the third day starts no earlier than 7 hours after the end of the engagement on the wedding day. When 2 nights are provided, the engagement ends on the third day at 4:00 PM or earlier according to the final checkout time at the location. If the photos continue on the third day after 8:00 PM, we reserve the right to request a third night's stay..

7. LOCATIONS AND SHOOTING TIME

The client is responsible for choosing and securing access to the shooting locations and providing at least one hour of shooting time for a photo session (under suitable lighting conditions). This ensures that we can deliver the level of photography you see in our portfolio.

8. OUR STYLE

Please review our photos before deciding that we are your photographers. We have a specific style that leans towards an artistic representation of the world around us. We aim to make things look lightfull, warmer, watercolour style, pastel-colored rather than highly contrasted or oversaturated. We love to add a touch of grain for a more painterly or moody effect. We believe this conveys the positive emotions of your wedding day. We love a natural look and candid moments, not artificially posed ones. Please take a look at our portfolio (what you'll receive will be in the same style) and reach out to us if you appreciate our specific approach, not just because someone told you or you read somewhere that we are very good—art is subjective.

9. COPYRIGHT

Gogo Kehayov reserves the right to use photo and video materials for promotional purposes. If the client requests Gogo Kehayov to waive copyright, Gogo Kehayov has the right to decline the commitment or to receive compensation equal to 50% of the photography price.
